## Teaching and Equipping Truckers To Be Fishers Of Men According To Matthew 4:19 Newsletter for January 2012

Dear Friends:

I trust you were blessed with a great Christmas and New Year's holiday. Debbie and I had a great yet busy time as

we were getting the church ready for Christmas, sorting things that were left here so we could have room to put our things away and get things the way we want them here at Steering Wheel Ministries, Chemult Bible Fellowship and Trucker's Center. By-the-way, in case you missed it, God spoke to a man and he called me telling me what God told him and that I was to find the building and he was to help us buy it. That same day the denomination who owned this property decided in a board meeting that they were going to sell. We later agreed on the price and the man donated the money so we were able to pay cash. Yes, God does love Steering Wheel Ministries.

The picture to the left is of the inside of the church sanctuary. Please pray that it will soon be full of local citizens and truck drivers every Sunday morning and Wednesday evening.

The weather was unseasonably dry after November 18 until January 18 when we received the snow you see in the picture to the right. Yes, that is me shoveling the walkway to the front door of the church so people can safely & easily make it to the door. We got well over two feet of snow & it is snowing again as I write this. I see that with each snow storm it can be a great time to minister to the truck drivers here on Hwy 97. I am praying for ideas of how to minister to the drivers during snow storms and I believe God has started giving me some ideas.

Thank you for holding Steering Wheel Ministries up to the Lord in prayer. Thank you too for your financial support so we can continue to be here for truck drivers, their families and the people of Chemult so they can be in Heaven too.

Yours in Christ's service,

Merwin Rhoades ~ President/Founder/Pastor

P.S.: We are having to depend on a man who has snow plows and he tries to keep us plowed out. He has the rest of the community to plow as well and literally he and his crew work around the clock and still cannot keep up. We need to get our own plow to put on the pick-up and we need a walk behind snow blower as well. This way we can keep things maintained and he can just keep the big stuff moved for us.
